- 1** Charger box light
- 2 7** Earphones charging port
- 3 6** Touch button
- 4 5** Earphones indicator (LED)

Usage

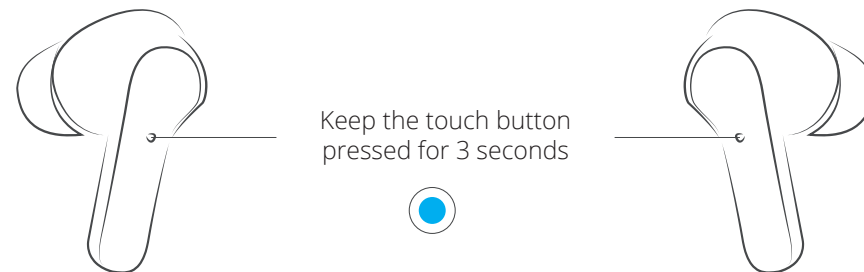

For the best audio experience it is recommended to wear the correct size silicone ear caps. Please note the difference in left and right earphones.

Switch on

Method 1: The earphones switch on automatically when taken out of the charger box.

Method 2: If the earphones are out of the charger box you can switch them on by pressing the touch button for 3-5 seconds.

To both methods applies: If the earphones are switched on, the LED flashes once and you will hear a sound prompt.

Switch off

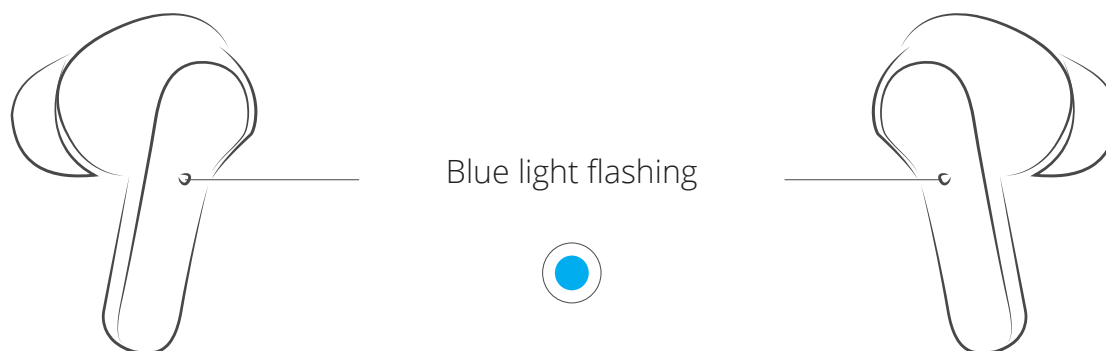

Method 1: The earphones switch off automatically when put into the charger box.

Method 2: If the earphones are out of the charger box you can switch them off by pressing the touch button for 3-5 seconds.

Note: If the earphones are disconnected from the device, the earphones will switch off automatically after 5 minutes.

Stereo mode

- 1 The earphones switch on automatically when taken out of the charger box. Within a few seconds, the left and right earphones will automatically connect to each other. While connecting the LED will flash quickly. Once connected, the LED will flash slowly.

Play music

- ✓ Touch one of the buttons on the earphones once to pause/play
- ✓ Press the touch button for 1 second to switch songs ('L' for previous song, 'R' for next song).
- ✓ Touch the button twice to adjust the volume ('L' for lowering, 'R' for raising).

Calling

- ✓ Answer a call: touch one of the buttons briefly
- ✓ End a call: touch one of the buttons briefly
- ✓ Reject a call: touch one of the buttons longer
- ✓ Adjust the volume during a call via your device

Charging

- ✓ Charging: the blue light is on
- ✓ The earphones can be charged 3 times with a full charger box
- ✓ Reject a call: touch one of the buttons longer
- ✓ If the earphones are not used for a longer period make sure to charge them at least every 2 months.

Specifications
